Journal of volcanology and geothermal research

# Contents Volume 70, 1996

*Research Papers*

The geochemistry of ashes from Vesterisbanken Seamount, Greenland Basin: implications for the evolution of an alkaline volcano
K.M. Haase, M. Hartmann and H.-J. Wallrabe-Adams . . . . . 1

The internal structure of lava flows—insights from AMS measurements I: Near-vent a'a
E. Cañón-Tapia, G.P.L. Walker and E. Herrero-Bervera . . . . . 21

Magma dynamics beneath Kameni volcano, Thera, Greece, as revealed by crystal size and shape measurements
M.D. Higgins . . . . . 37

The caldera-forming eruption of Ksudach volcano about cal. A.D. 240: the greatest explosive event of our era in Kamchatka, Russia
O.A. Braitseva, I.V. Melekestsev, V.V. Ponomareva and V.Yu. Kirianov . . . . . 49

On the self-organized critical state of Vesuvio volcano
G. Luongo, A. Mazzarella and A. Palumbo . . . . . 67

Computer-assisted image analysis on clast shape fabric from the Orvieto–Bagnoregio ignimbrite (Vulsini District, central Italy): implications on the emplacement mechanisms
B. Capaccioni and D. Sarocchi . . . . . 75

A subaqueous welded tuff from the Ordovician of County Waterford, Ireland
W.J. Fritz and C.J. Stillman . . . . . 91

The Kizilkaya ignimbrite — an unusual low-aspect-ratio ignimbrite from Cappadocia, central Turkey
R. Schumacher and U. Mues-Schumacher . . . . . 107

Internal structure of Piton de la Fournaise volcano from seismic wave propagation and earthquake distribution
A. Nercessian, A. Hirn, J.-C. Lépine and M. Sapin . . . . . 123

Stress, failure and fluid flow deduced from earthquakes accompanying eruptions at Piton de la Fournaise volcano
M. Sapin, A. Hirn, J.-C. Lépine and A. Nercessian . . . . . 145

Experiments on gas–ash separation processes in volcanic umbrella plumes
R.E. Holasek, A.W. Woods and S. Self . . . . . 169

Volcanic complexes in the eastern ridge of the Canary Islands: the Miocene activity of the island of Fuerteventura
E. Ancochea, J.L. Brändle, C.R. Cubas, F. Hernán and M.J. Huertas . . . . . 183

Chaos and stochasticity in volcanic eruptions the case of Mount Etna and Vesuvius
W. Marzocchi . . . . . 205

Separation of intrinsic and scattering $Q$ for volcanic areas: a comparison between Etna and Campi Flegrei
E. Del Pezzo, M. Simini and J.M. Ibañez . . . . . 213

Evidence for gas influence on volcanic seismic signals recorded at Stromboli
M. Ripepe . . . . . 221

Organic matter in the Soultz HDR granitic thermal exchanger (France): natural tracer of fluid circulations between the basement and its sedimentary cover
B. Ledésert, J. Joffre, A. Amblès, P. Sardini, A. Genter and A. Meunier . . . . . 235

*Discussion*

Comment on "Age and cooling history of the Manaslu granite: implications for Himalayan tectonics" by Copeland et al.
I.M. Villa . . . . . 255

Reply to the Comment on "Age and cooling history of the Manaslu granite: implications for Himalayan tectonics" by Igor Villa
P. Copeland, T.M. Harrison and P. Le Fort . . . . . 262

Contents Volume . . . . . 265
